

Project Title: A Method For Enhanced Lentiviral Transduction And Improved T-cells Efficacy

PROPOSED R&D PROJECT

We are keen to develop novel chimeric antigen receptors, especially in partnership with companies with therapeutic antibodies discovery capabilities.

Project Proposer

Nationality: Singapore

Technology & Role:

Our proprietary platform technology enables the production of highly purified viral vector products. Thus, we are capable of vectors construction, purification and immune cells characterization.

Desired Partner

Nationality: Turkey

Technology & Role:

We are keen to explore strategic R&D collaboration and partnership with like-minded CAR-T companies or companies with therapeutic antibodies discovery capabilities.

Contact Info of Project Proposer

Company: CellVec Pte Ltd

Name: Paula Lam (Dr)

Contact: +65 96171967

Email: paula.lam@cellvec.com

Reach out to the contact stated above, if you are interested to collaborate on this project.
