

Project Title: Predictive Machine Condition Monitoring System

PROPOSED R&D PROJECT

We have a unique Edge AI-based condition monitoring system prototype that is able to detect machine operating conditions with high accuracy.

Project Proposer

Nationality: Singapore

Technology & Role:

We have a unique neuromorphic and deep learning algorithm enabling Ai to create innovative business solutions. Our task in this project is on the artificial intelligence portion.

Desired Partner

Nationality: Turkey

Technology & Role:

We desire a company willing to co innovate this project with us and co market and manufacture the product for sale.

Contact Info of Project Proposer

Company: Longway A.I. Technologies

Name: Calvin Ng (Mr)

Contact: +65 97640285

Email: calvin.ng@longwayai.com

Reach out to the contact stated above, if you are interested to collaborate on this project.
